This is the best movie in the history of the world.

I don't know...I'm awfully partial to "The Lion in Winter".

Now you know.

And knowing is half the battle. ([The other half is red lasers and blue lasers.](#)) ^_^

There's more to life than red and blue lasers.

Okay, realistically, it's kind of disjointed and everything about it looks like a student film. But it's the most awesome student film ever filmed.

I like the semi-animate manhole cover. I suspect it's related to the semi-animate hubcap from Highlander.

He hasn't seen the Jackie Chan *Supercop* with her in it. Don't tell him about the motorcycle thing.

A kitten or a puppy that COMPLETELY KICKS ASS.

I must recommend "Restless Sword" (or possibly "Restless".

I'm pretty sure that nothing can actually compete with this except maybe *The Wizard of Speed and Time*.

But, but, it's got a paladin/monk with a demon-slaying sword on a string that cuts through demon-ninja-zombies like a totally awesome thing!

And it's a love story!

LOTS of things are better with sleep dep, apparently. Like Dead Rising in HD with the 5.1 Surround cranked at 3 am.

No officer, that isn't three cubes of Mountain Dew emptied behind the door, why do you ask?
